Moving The Markets

The ISM® *Report On Business*®, featuring the Manufacturing PMI®, Services PMI® and Hospital PMI®, continues to provide an important and timely measure by which to gauge the U.S. economy.

“Highly regarded by business analysts because they have proven to be a reliable gauge of economic activity over a long period.”

— Richmond Fed

Join the Business Survey Panel

The Panel is critical in providing data for these reports. Respondents from the manufacturing and services sectors (which includes the hospital sector) provide data about their organization's performance by completing a quick and easy survey. Responses are entered into a secure database, ensuring complete confidentiality for panelists and their organizations.

Panel Participation Benefits

- Give back to the profession. By participating in the survey, respondents give other professionals insight into the economy.
- Earn continuing education hours (CEHs). Earn 6 toward recertification of your CPSM® or CPSD®.
- Being a part of the Panel will allow you to better learn how to understand and use the data.

Reliable and Timely

The ISM® PMI® reports give the most reliable near-term economic barometer.

Manufacturing
PMI®
Released on

1st

business day
of the month
